THE TIMES EARLY IN NORTH CAROLINA

Richmord Papers Ahead of All Others in That State.

GREENSBORO IS A LIVE CITY

Selling Mantels for William Jennings Bryan's New Fine House, and Furniture at Grand Rapids, Mich. Will Give Aycock a H.me.

(Special Dispatch to The Times.)
GREENSBORG, N. C., November 1.—
The change of scheduc on the Southern of great benent and convenience, erly there was no train south at Under the new schedule the mornnoon. Under the new schedule the morning train from Richmond will arrive here that I o'clock, going on through to that lotte. This will put the Richmond papers here six hours earlier, and will give them that much advantage over the New from Flere see Haney and other members York and Washington papers, with which they have heretotore had to compete. A they have heretolore had to compete. Severy prominent lawyer, and one of the most influential men in the county, speaking of this yesterday, said he considered the Richmond Times the cleanest, ablest and best of all daily papers, and he beartly hoped the new schedule would enable it to regain its old-time wide circulation in this section.

PUBLIC SPIRITED TOWN.

secret of the immense progress of bore and Guilford county is the engage in rusiness here to all the solution of a less desirable residence section. No better illustration of the spirit of progress can be given than by a mply narrating the fact that during this present hot political campaign there have been head in the county at afforent times seven local township elections for the purpose of voting extra tax on property for the establishment of rural graded schools. The friends of better schools have been largely in the majority in each instance. The friends of better schools have been largely in the majority in each instance the contest in no place being mixed with politics or at all acrimonious. The means that the political demangeues of both parties know the temper of the people and dare not arouse it. The same may be said in regard to the good roads movement, which has been in successful practical operation for five years, all friction taxing long ago, cossed.

Many citizens have recently been talk-ing of a project to build and furnish to Governor Aycock, if he will accept it, a cozy res dence, to be occupied by him af-ter his term of Chief Executive expires. They say that as "Educational Governor They say that as "Educational Governor he belongs in the congenial atmosphere here amid universal procress, intelligence and order. They are saying that in his own home county he has been recently most severely rebuked for the two things the people here most cordially approve lin bamb shrdudrhsiliuushrdluh dluhrdlu in his vigorous administration.

in his vigorous administration.

He condemns lynching, and offered large rewards for lynchers. Since then there has been a public lynching in his county, and the unprecedented example there has been a public lynching in his county, and the unprecedented example was set there by the coroner's jury in a public verdict, with each man's name signed to it, exonerating the perpetrators, and approving the deed. Again the signed to it, experiting the deed. Again, the and approving the deed. Again, the Governor has pleade from one end of the Biate to the other in favor of a free school education for every child in the chool education for every child in the digestion is too weak to assimilate them digestion is too weak to assimilate them digestion. county, at an immense mass-meeting, a properly, county, at an immense mass-meeting, a properly.

It is always best to get the best results and the county was adopted demanding that resolution was adopted demanding that the neg oes should not longer share in exes for educati n paid by white people The two occurrences have been the talk of the State, and if the brilliant, elo-quent, able and good young Governor, des res to reside where his progress v. broad and high-minded intelligence is apto lift the latch to the door of a Guilford be county home that will be ready for him.

Patent attorners at Washington, D. C., was very much needed by the covernment mail service, as well as by the public, and that such an invention would be sure to make a fortune for the inventor; that the American patent could easily be sold for \$50,000, and that the same patented in European countries would be continued in the covernment of the inventor; that the American patent could easily be sold for \$50,000, and that the same patented in European countries would be covernment. me peen sending notices to the inven-•d in European countries would be equal-ly valuable there.

LOOK OUT FOR

It is bound to come now that winter is here with its cold waves, keen cutting winds, rain and sleet, and snow and slush. It takes just such weather to produce and develop Catarrh and bring out all its humiliating and disgusting symptoms. The slight cold becomes a stubborn and protracted one, while the discharges from the nose are most offensive and sickening. As the inflammation extends further up into the head and the delicate mechanism of the ear is attacked, there is a continual buzzing and ringing in the ears, and frequently the hearing is partially or totally lost. Headaches are almost constant, with sometimes acute pains in the eyes, and the nose becomes so plugged up that the patient must breathe through the mouth while the filthy secretions are forced back into the throat, requiring almost continual hawking and spitting to

dislodge them. At certain stages of the disease, the odor of the breath becomes fearfully offensive, to the great mortification and embarrassment of the sufferers and disgust of all who come near them. Little by little the foul matter finds its way into the Stomach, ruining the digestion, and a most miserable form of dyspepsia or Catarrh of the Stomach is the inevitable consequence. The blood becomes contaminated by the foul secretions and unhealthy matter, and these are distributed through the body, and Catarrh is then a deep-seated, dangerous constitutional or systemic discase, and its effect upon the general health and system is soon apparent-appetite and strength are gone and the disease frequently settles in some vital organ or terminates in Bronchitis or dread Consumption.

While sprays, washes and the many other local remedies so diligently used give temporary relief, chronic Catarrh sufferers know that they possess no curative properties and fail to reach the true source of the trouble and all the benefits received from such treatment are swept away by the first breath of winter.

To cure Catarrh permanently, the blood must be purified and the system cleansed of the accumulated poisons, and for this purpose nothing equals S. S. S. It reaches cases in this way that seem

almost hopeless and beyond the reach of medicine. S. S. S. not only purges the blood of the effete matter and catarrhal secretions, but at the same time invigorates and builds up the entire

system, and as rich pure blood begins to circulate through the body, the inflamed membranes and other parts of the system affected by the Catarrh, begin to heal, the mucous discharges gradually grow less and finally cease, and all the disagreeable and disgusting symptoms of Catarra disappear. S. S. S. tones up the Stomach and stimulates all the vital organs and keeps the blood in such a state of

healthfulness that one is not so susceptible to cold or so liable to contract Catarrh even when exposed to bad weather. Cold wave flags cause no anxiety to those whose systems are nourished and strengthened by rich pure blood. S. S. S. is a purely vegetable remedy and can be taken with perfect safety by old and young or persons of delicate constitution. Write us about your case and our physicians will advise without charge.
